GERMANS RENEWED ASSAULT TO-DAY BUT WERE REPULSED-- French Generally Have Advantage--Violent Cannonading on Greek Front

GERMANS AGAIN BEATEN BY VERDUN'S DEFENDERS

Flame Projector Attack This Morning Was Repulsed

**Huns Lost Heavily Yesterday--
Busy at Saloniki.**

In Caurettes wood, just west of the Meuse River, another attempt to break the French line defending Verdun was made this morning by German troops. The official communication from Paris says the attack was repulsed. East of the river there was no infantry fighting during the night, although the artillery kept up its incessant fire.

The official French statement says the German losses in yesterday's fighting were very heavy. Press despatches from Paris give praise to the German soldiers, who, after nearly two months of the fiercest fighting, keep up the struggle with no visible diminution of courage and ardor. The French, too, sustain the shock of battle with no evidence of fatigue, and the struggle for Verdun goes on with no sign of an ending.

After a winter of inactivity along the Greek frontier, heavy fighting is now under way, although apparently it is still confined principally to artillery actions. An unconfirmed report from Saloniki tells of the capture of a fortified position by the German allies, but so far as is indicated no large bodies of infantry have been engaged.

The destruction of British shipping, which is causing concern in England, continues at a rapid rate. The Senator, a new British 3,500-ton steamer, has been sent to the bottom. The crew is believed to have been rescued.

Official investigation of the sinking of the Dutch steamships Tuba and Palenbarg has resulted in a finding that both were torpedoed. It is said this has been established conclusively, and the theory that the Palenbarg may have struck a mine is rejected.

Spain is awaiting further information before deciding its course in respect to the sinking of the Spanish steamship Santanderino, with the loss of four lives. The Santanderino is reported officially to have been sunk by a submarine, but Premier Romanones expressed himself as reluctant to believe these reports until a thorough inquiry had been made. Meanwhile, he stated, preliminary instructions have been telegraphed to the Spanish Ambassador in Berlin.

THINKS PEACE MUCH NEARER THAN MOST PEOPLE SUPPOSE

Snowden, Socialist M.P., Expects It Any Day, With His Party to Have a Great Part.

(By Times Special Wire.)
New York, April 12.—The London correspondent of the Tribune cables: "Despite the fact of the Czarina's death, Philip Snowden, M. P., the English Socialist will play a great part in peace arrangements and in the post-war settlements. Talking to the correspondent yesterday, he said:

"The Socialist movement is now strong enough to dominate the peace of the war. Recently the German Social Democratic party mailed Morris Hillquit the party's ideas of peace. The Socialists are in favour of any session of Alsace to France since then the party has been anti-Snowden, one section, following the lead of the Socialists, has always reproved itself. Peace always comes while fighting is persisting."

"After the war the International Socialist League will be taking a great voice in shaping future international arrangement. Furthermore, the spirit of international Socialism, especially among the million Americans, especially because its advocates are true to their principles, who, despite all influences, have remained loyal to their convictions."

GRAND TRUNK WILL BUILD NEW KING STREET STATION AT ONCE

Pians Are Prepared and Work Will be Completed, It Is Expected, This Summer.

Grand Trunk has plans ready for construction of a new King Street station, just a little south of the old one. It was announced yesterday by Mr. J. G. Gordon to Alderman Newlands and Hodson, and Secretary of State for War, that the plan had been completed with him at Ottawa, and offices regarding it had put up a new one.

Thursday Night.

GIVE US MEN

The call to Canada and men of Hamilton for the 205th Sportsmen's Battalion:
Give us men from every rank—
Brave and strong and free and frank.
Give us men of thought and reading;
Give us men of light and leading;
Men of faith and not of faction,
Men of lofty aim and action.
This our call, and not in vain,
Give us, give us give us MEN!

SPAIN AMAZED BY TORPEDOING

(By Times Special Cable.)
Madrid, via Paris, April 12.—"We are confronted by such an incomprehensible situation that any man would be compelled to believe it until a thousand proofs have been made," said Count Romanones, the Spanish Foreign Minister, last night with regard to the torpedoing in the Bay of Biscay of the Spanish liner S.S. Alfonso XII, as a consequence of which four lives were lost.

"I don't understand, I am waiting for full information before I can say anything," the Premier added. "I may say, however, that preliminary instructions have already been telegraphed to our Ambassador in Berlin."

giving up all elements of conquest and gaining the upper hand.

"When one remembers that the German Social Democratic party has been beaten, it is like the end of the Covenant; it can be realized how truly Socialism is gaining ground in Germany. That is what is happening in Great Britain."

The war party, brilliant though it is, content to cling to shibboleths of a narrow socialistic life. We know where we are also what men we count.

When peace comes our views are bound to tell. I believe peace is much more important than victory," he supposed.

"Don't be surprised, I will wake up tomorrow and read in the newspapers that a truce has been declared, and then we'll repeat it."

"Don't be surprised, I will wake up tomorrow and read in the newspapers that a truce has been declared, and that it was thus rightly concluded by Germany."

THE SOCIALIST MOVEMENT IS NOW STRONG ENOUGH TO DOMINATE THE PEACE OF THE WAR.

After the war the International Socialist League will be taking a great voice in shaping future international arrangement.

Furthermore, the spirit of international Socialism,

especially among the million Americans,

especially because its advocates are true to their principles, who, despite all influences, have remained loyal to their convictions."

WEDNESDAY, APRIL 12, 1916.

A STRONG PROTEST.

Whatever official America may be thinking of the Great European struggle, the people of the United States—the unphrased-American people—are realizing that neutrality in the face of such a terrible war is inconsistent with the true spirit of our democratic principles. In Carnegie Hall New York, recently, the meeting of the American Rights Association, a new organization of citizens of American loyalties to the Allies and the Central Powers. The statement of the boldest of the founders of the Association, endorsed by thousands of American citizens, is important and far-reaching. We quote in part:

"Our eyes have been opened to facts which were not fully revealed when we adopted a policy of strict neutrality. The situation which confronts us to-day is not that which confronted us in August, 1914. Then, we were admonished to remain neutral towards the European crisis; to-day we are involved in a world-crisis. Then we followed the traditional American policy of non-interference in European political struggles; to-day we are called upon to champion the immutable and universal rights of man. Then we tried to maintain neutrality of thought as well as of word and deed; to-day the Teutonic Allies have forced upon us terms which render neutrality merely impossible, but utterly repugnant to the moral conscience of the nation. Through our fuller knowledge of the events which precipitated the war, of the manner in which it has been prosecuted by the Teutonic Allies, and of the enormous schemes for Teutonic aggrandizement, we have come to understand that a theory and method of government which we abhor is being forced upon the world by means of military force."

The crisis which our nation was founded to maintain is to-day imperiled by the possibility of a Teutonic triumph.

"In the face of these assaults upon democratic government and human liberties, the American people have abandoned an impossible neutrality of thought and to-day are hoping and praying for the defeat of the Teutonic arms and the triumph of those principles for which the Entente Allies are fighting.

We believe that the time has come for an unambiguous expression of American opinion on the moral issues of the war."

Upon this foundation there has been established a certain definite doctrine. To quote again:

"We believe that there is a majority of nations which regards every effort to maintain its integrity and independence as an effort in its own behalf and to its own combat with the enemies of mankind."

The Foreign Minister of the Teutonic Allies is a speaker who has a record of inciting nations and causing issues which fit the present struggle from the sphere of European politics. He is a man with a record of a secret treaty with the Germans of Canada."

3. We believe that in the face of such a world-crisis our people cannot remain neutral, and our Government must take appropriate action to place the nation on record as unabashedly opposed to the aims and methods of the Teutonic Allies, and as firmly in sympathy with the efforts of the Entente Allies to remove the menace of Prussian militarism.

This document should help to steady public opinion among our neighbors. American democracy can have nothing to do with German barbarity.

EDITORIAL NOTES

We can't clean up the ground right up.

Some of our baseball pitchers would make excellent bomb throwers.

Andrew Broder comes from the same town as does Col. Allison. That may account for Andrew's vote.

Seeing that Von Pannier failed to invade Canada, the Chancellor may think that there is no use trying again.

7. We believe that our duty to humanity, and to our own country, is to take appropriate action to place the nation on record as unabashedly opposed to the aims and methods of the Teutonic Allies, and as firmly in sympathy with the efforts of the Entente Allies to remove the menace of Prussian militarism.

This document should help to steady public opinion among our neighbors. American democracy can have nothing to do with German barbarity.

THE PRICE OF BREAD.

Whatever major disaster—whatever people generally think about the price of bread or the bread ring, it is evident that the aldermen are not very enthusiastic in the fight for cheaper bread. In fact it looks as if a lot of them were slackers. The reception which Ald. Halford's long-winded resolution, with its many "whereases" (it must have been drawn up by some lawyer), got from the Council must have been discouraging to those in the thinning the right wing of the bread ring to their backs. There was no word of sympathy or encouragement for the Mayor in his efforts to get cheaper bread for the people. It did not interest them. There was no chance of a trip to Toronto or Ottawa or even Pittsburgh. When it comes to cheaper gas the aldermen will sit up all night and talk.

True, a resolution was passed that the Board of Control take into its consideration the establishment of a municipal bakery. Why not a municipal grocery? The Mayor may continue his fight, but the Council is not at his back.

In the City Council meeting last evening on motion of Ald. McQueen and Controller Morris, Col. A. Hatch was appointed to the Hospital Board. In this connection, it may be mentioned that Mr. W. J. Waugh refused to enter a contest for the position, believing that the job should seek the man, not the man the job.

The Hon. Geo. P. Graman is being condemned because he advised conciliatory methods in the settlement of the bilingual question. These who commanded him should read Premier Atkinson's condemnation of the German suppression of the Polish language in Poland. There may be no comparison between the two, yet there is a certain truth.

The Rochester Times tells of a well known Canadian financier of 65 years of age, who went to England in the interests of his health. He had money enough to live in any way he chose, and his trip abroad was chiefly for the purpose of consulting the best physician obtainable in an effort to learn how he could live it out 100 years old.

The physician told him that he could

only expect long life by keeping work and exercise light with him. The doctor never knew of a man living to extreme old age who had "retired." Perhaps that is what keeps some of us working when we should be resting.

The death of Richard Harding Davis, American author, newspaperman and war correspondent, is announced to-day. Although Mr. Davis had written many books, and was at one time editor of Harper's Weekly, he was best known as a war correspondent acting in a capacity in the Spanish war of 1898 and the Boer War. In the present war, Mr. Davis was a strong supporter of the Allies, and was very bitter against Germany for her treatment of Belgium.

Canada now has 25 members of Parliament and 41 members of Provincial Legislatures, 12 of whom are these members of the Federal House. Seventeen M.P.'s are actually on service overseas. The rest are still in Canada, preparing to get to the front as soon as possible, or serving in some honorary or other non-combatant capacity. Most of them are drawing the pay of their military rank in addition to their regular naval indemnities. Canada is spending \$100,000,000 a year, and, piling up a prodigious debt. In these circumstances we do not think that it should be called upon to pay two salaries to anybody.

Sam Landers was up in London on Sunday talking at a recruiting meeting, and the London Free Press, which is Tory before everything else, got angry at Sam for saying that "The Government has pledged itself to the mother country 500,000 men. It hasn't raised a finger or done a thing to get these men." With a play upon words, the Free Press insists that the Government has only authorized the raising of these men. How small. We suppose the Government has no responsibility in the matter. Just leaves it to the people to raise the number or not. And that is just what it is doing. It is to neglect the statement that the Government has raised its little finger to help in recruiting, declaring that the Ministers have all made recruiting speeches. It's to laugh!

Judge Snider, of this city; William Ingalls, of the firm of John Ingalls & Co., Toronto, and John McClelland, of Montreal, Vice-President of the International Association of Machinists, have been appointed by the Dominion Government a commission to investigate labor conditions in the munition factories of Toronto and Montreal.

This caused dissatisfaction in labor circles, because conditions were declared not to be right. We said at the time that the Government should at least have had a fair wage clause inserted in the munition contracts before making use of the Lemieux Act. Eventually the Government has agreed to do so.

An interview at Winnipeg Mr. Clark declared that

Canada is giving to the flames the largest amount of forest wood ever put into the market. The last Dominion loan of one hundred million dollars. What is the use of "camouflaging" forests? The national economy and personal economy of Canada's wealth is tossed into the bonfire this amazing fashion?" It is as great a waste as it is a sin.

Arthur scooped up the electric typewriter and carried it into Lake Superior with his right. As a piece of the nation's collateral, to help bear the strain of to-day and to take up tomorrow's reconstruction, we refused to see that Canada's forests were after all part and parcel of the general mobilization order. We should not neglect to do our share of the timber war, or peace, but thousands of Canadians never gave a thought to forest conservation until they realized that forest strength is synonymous with war strength."

As a piece of the nation's collateral, to help bear the strain of to-day and to take up tomorrow's reconstruction, we refused to see that Canada's forests were after all part and parcel of the general mobilization order. We should not neglect to do our share of the timber war, or peace, but thousands of Canadians never gave a thought to forest conservation until they realized that forest strength is synonymous with war strength."

Judge Snider, of this city; William Ingalls, of the firm of John Ingalls & Co., Toronto, and John McClelland, of Montreal, Vice-President of the International Association of Machinists, have been appointed by the Dominion Government a commission to investigate labor conditions in the munition factories of Toronto and Montreal.

This caused dissatisfaction in labor circles, because conditions were declared not to be right. We said at the time that the Government should at least have had a fair wage clause inserted in the munition contracts before making use of the Lemieux Act. Eventually the Government has agreed to do so.

An interview at Winnipeg Mr. Clark declared that

Canada is giving to the flames the largest amount of forest wood ever put into the market. The last Dominion loan of one hundred million dollars. What is the use of "camouflaging" forests? The national economy and personal economy of Canada's wealth is tossed into the bonfire this amazing fashion?" It is as great a waste as it is a sin.

TEA TABLE GOSSIP

W. J. Waugh, Secretary-Treasurer of the Trinity of the Hamilton Aged Women's Home, received \$1,000 from the executors of the late Wm. Vallance estate.

Big loads of wall paper have recently been received at J. W. Son's, all from department stores. John says the large shipments they expect to do a great business this season. They certain have very attractive prices on reasonable articles.

The investigation by His Honor Judge Sander, George S. Kerr, C.M., an ex-commissioner, James Simpson, in charge of the police, and his employees has not yet been completed. It was quite likely that all evidence will be in this afternoon.

The administration of the Roberson Travelling for the benefit of the 25th Sportsmen, to be held at the Alexandra Rink next week, will be necessary.

No. 26. No coupon will be necessary.

HIGHWAY ISSUE

Mayor Has Resolution Set-

ting Forth City's Stand.

A resolution prepared by Mayor Walters for the Council last night recommended that the proposed Tenth Hamilton highway not reach the sideroad until after a majority of the members had left, although His Worship and Controller Morris were anxious to have it passed. The resolution, which sets forth the city's stand in this matter, will be endorsed later. It is as follows:

"Whereas the city engineer and James Mackie, O. S. M., proposed to have the Tenth Hamilton highway built across the entrance of the Toronto and Hamilton highway into the city of Hamilton, and approved of the building of such highway, consisting of a bridge over the bridge, and in the opinion of this Council a high-level bridge should be constructed at the proposed site;

"Resolved therefore that the Council recommend the erection of a high-level bridge, provided the Toronto and Hamilton highway is built across the entrance of such bridge the estimated cost of the proposed highway from its present western terminus to the city limits at four cents per foot, and a grade adopted reasonable grade and a grade adopted upon other portions of the commission's highway, the balance of the commission's highway, the balance of the proposed highway, and the approximate among the different municipalities, corporations and persons interested and the Ontario government, and amounts shall be determined by the Ontario Railway and Municipal Board.

"Resolved further that the Mayor, controller and city engineer be a committee to look after the interests of the city in the matter of the proposed legislation."
